Steve: In your renewal application for Sunrise, in the references given for figure S-1 you reference the following letter:

SUNRISE POWER COMPANY, LLC Sunrise Permit Package

References

U.S. Environmental Protection Agency (USEPA). 2009. Letter from Alexis Strauss, Director, Water Division, Region IX, to Mr. Jason Marshall, Acting State Oil and Gas Supervisor, California Department of Conservation, Division of Oil, Gas, and Geothermal Resources (DOGGR). July 31, 2009.

Can you send me a copy of this letter?

Subject: Sunrise UIC Well Operations

Joel,

I wanted to inform you that Sunrise discovered on April 14th and 15th that they temporarily lost communication with the two transmitters that provide flow data for wells WW3, WW4, and A72R. The south radio that serves the flow transmitter for wells WW3 and WW4, the north radio that serves the flow transmitter for well A72R, and the downhole pressure transducer loss power. The respective batteries were replaced and power was restored to the radios on April 18. Since the repair, the radios continue to report the respective flow data; however, the downhole pressure indication continues to be faulty. We will report the loss of communication and respective repairs and the status of the downhole pressure transducer resolution in the first quarter 2016 report. We are also addressing preventive measures to better ensure radio service for these transmitters.

If you have any questions, please do not hesitate to contact me.

Best Regards,

George Piantka, PE
